# INTRODUCTION

Although UNC International was founded in 2013, the journey began long before that. In 2002, we started experimenting and testing Ceramics and Zirconia for the dental market, becoming part of the first generation to create innovative Zirconia products.

For the past 20 years we have developed a company full of experienced and passionate individuals, exporting high quality products our customers can rely on.

# OUR VALUES

## People Centered

At UNC we understand the importance of not just health but also beauty. We understand not every customer is the same and have different needs. We invent products not just for those in need of medical reconstruction, but also those looking to upgrade their smiles.

# OUR VALUES

## Dedicated to Our Service

Not matter how good a product is, if the service does not live up to the same standard, the product becomes obsolete. This is why we are customer focused and provide dedicated customer service that is fast and effective. Our dedicated team members are ready to answer any questions or concerns via phone or email, and handle any issues whether it be domestic or abroad.

# OUR VALUES

## Innovating the Future Market

Since even before the beginning of our company, the founders were focused on creating new, never seen before Zirconia products. We hope to become the future of dental health and beauty and are making steps towards that with products such as EVEREST Universal Speed.

# OUR VISION

## Developing New, Innovative Products

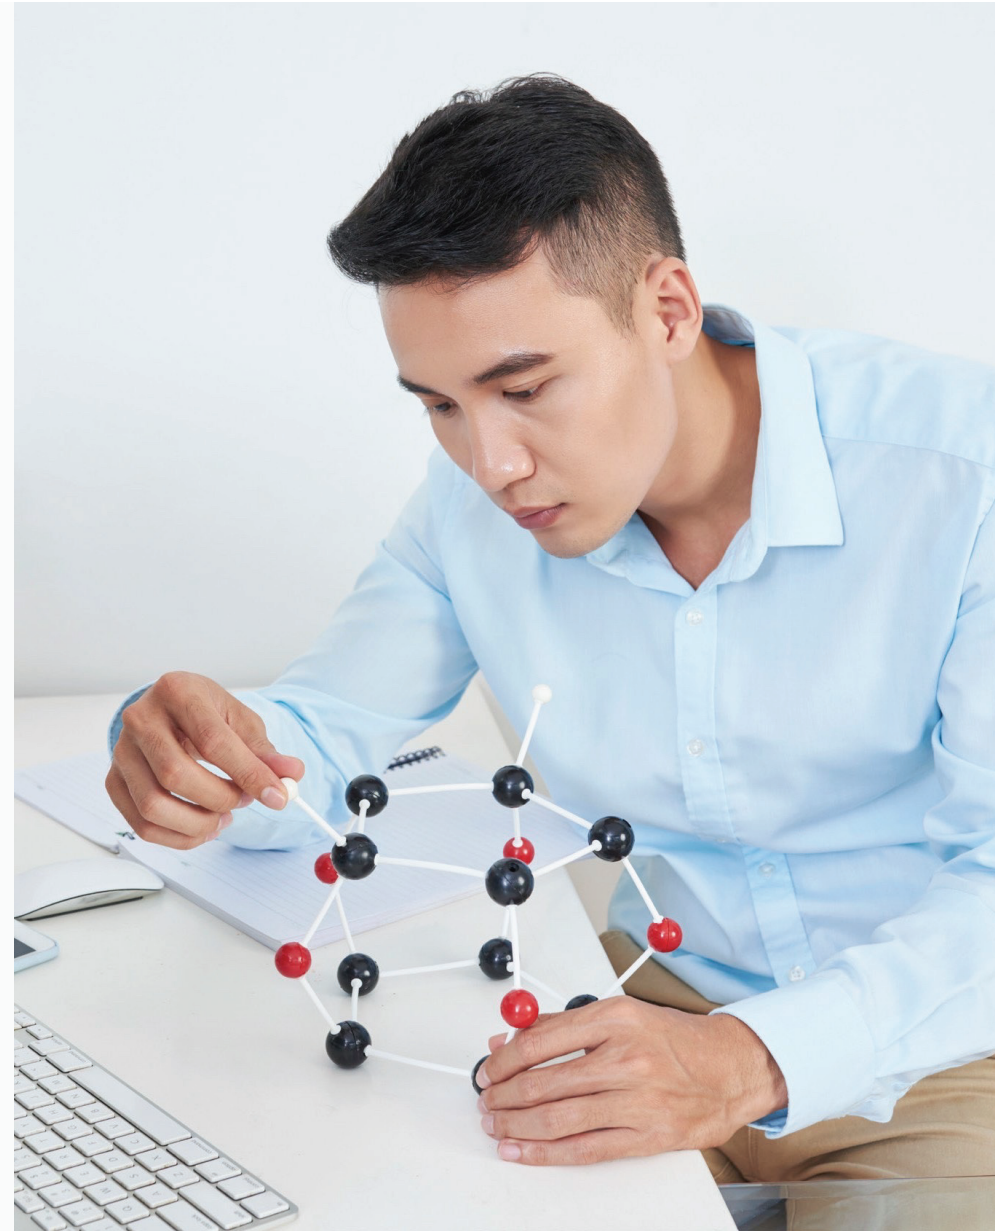

We aim to keep creating new products that will shape the future of the dental industry.

## Achieve No. 1 Global Market Share by 2025

At UNC, we have high hopes and high expectations, and we are willing to put in the work to become number 1.

## Help People Smile

Whether it be for function or beauty, our goal is help bring smiles to those who need them.

# HISTORY

## 2013 - Present

2013

- Founded the UNC (KICET)
- Registered Venture Company
- Licensed manufacturing medical instrument
- Obtained KGMP Certification
- Established U&C Int. R&D center (Korea Industrial Technology Association)
- Launched dental Zirconia block I-JAM

2014

- Launched I-JAM Sapphire, Ruby, Opal, New ruby
- Launched ZirMic1, ZirMic2 (First anterior zirconia block in Korea)

2015

- Export contract with Russia and Mexico

2016

- Export and manufacturing contract with China
- Supply contract with 3M Corp
- Changed into a juristic person U&C International
- Launched RAZOR 1100, 1300 (First new material block in Korea)

2017

- Launched Razor 800 for anterior teeth (First anterior high transmittance new material block in Korea)
- Launched RAZOR Coloring Liquid Natural, Effect
- Established domestic and international dental marketing and distribution company U&T
- Achieved NO.1 market share in Korea (40%)

2018

- Relocated new factory in Guro-gu, Seoul
- Launched 3D Multilayer EVEREST AT, PT
- Participated in VIDEK 2018 in Ho Chi Minh, Vietnam

2019

- Approved ISO 13845, 9001
- Approved F.D.A
- Launched EVEREST line up (AT, PT, MO)
- Established Roydent Lab in San Jose, USA
- Participated in AEEDC 2019 in Dubai, UAE
- Participated in Dental-Expo 2019 in Moscow, Russia
- Participated in HIDEK 2019 in Hanoi, Vietnam

2020

- Obtained certification in Vietnam
- Established overseas sales department
- Established a local sales corporation in Ho Chi Minh, Vietnam (UNC International SEA)
- Relocated new headquarter & factory in Danwon-gu, Ansan-si
- Participated in AEEDC 2020 in Dubai, UAE

2021

- Obtained MDSAP Certification (Canada, Australia, Japan, USA)
- Obtained ARTG Certification (Australia)
- Launched EVEREST Volcan (Dental electronic furnace)
- Established STL Digital Art Center (Korea and Ho Chi Minh, Vietnam)
- Participated in AEEDC 2021 in Dubai, UAE
- Participated in IDS 2021 in Koeln, Germany

2022

- Launched EVEREST Multilayer UVS
- Launched EVEREST Volcan Speed (Speed sintering furnace)
- Participated in LMT Lab Day 2022 in Chicago, USA
- Participated in IDEM 2022 in Singapore
- Participated in Dental-Expo 2022 in Moscow, Russia

2023

- UNC International welcomes a new CEO
- Participated in AEEDC 2023 in Dubai, UAE
- Participated in IDS 2023 in Koeln, Germany
- Participated in World Dental Show 2023 in Yokohama, Japan
- Participated in CADEX 2023 in Almaty, Kazakhstan
- Participated in TDA 2023 in Bangkok, Thailand

2024

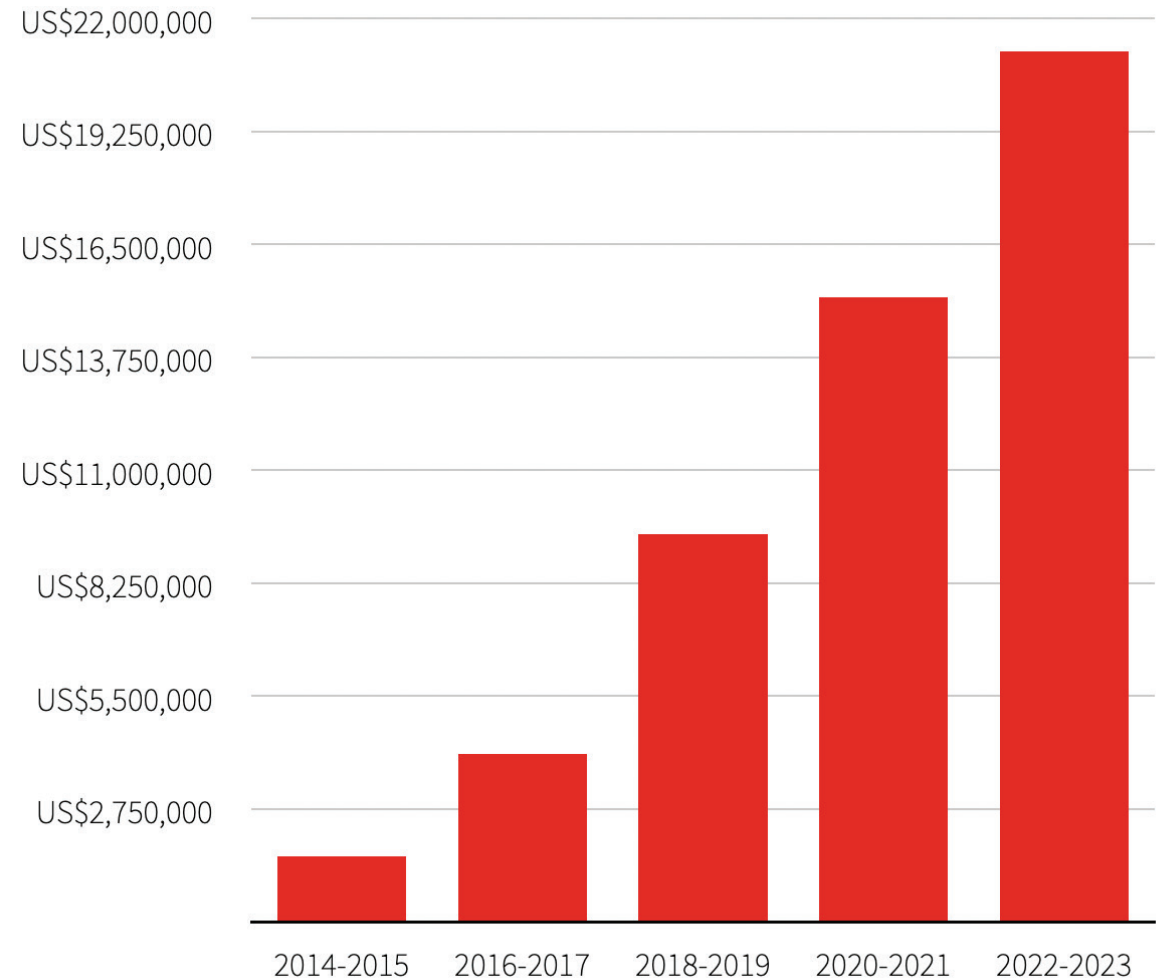

- Started domestic general materials distribution business
- Revamped EVEREST Multilayer UVS
- Revamped EVEREST Volcan Speed & Mini
- Participated in IDEM 2024 in Singapore
- Participated in VIDEK 2024 & held Seminar in Ho Chi Minh, Vietnam
- Participated in AMIC 2024 in Mexico City, Mexico

2025

- Participated in CIOSEP 2025 in Sao Paulo, Brazil
- Participated in AEEDC 2025 in Dubai, UAE
- Participated in IDS 2025 in Koeln, Germany
- Participated in IDEX 2025 in Istanbul, Turkiye
- Participated in VIDEK 2025 in Hanoi, Vietnam
- Participated in CADEX 2025 in Almaty, Kazakhstan

# YEARLY SALES

Since the start, our company has seen steady growth in sales each year. Even during corona, where most companies saw losses or even worse, we grew the most to date.

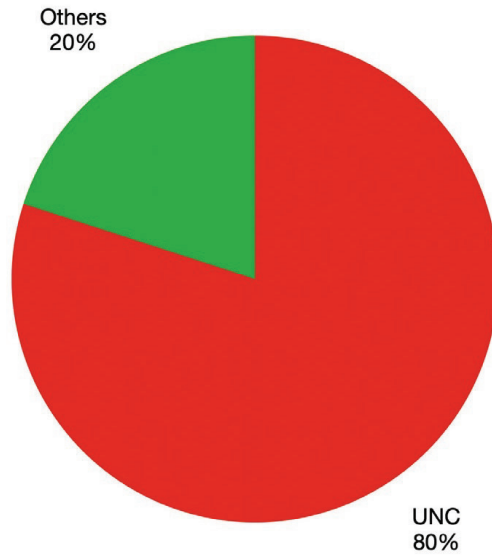

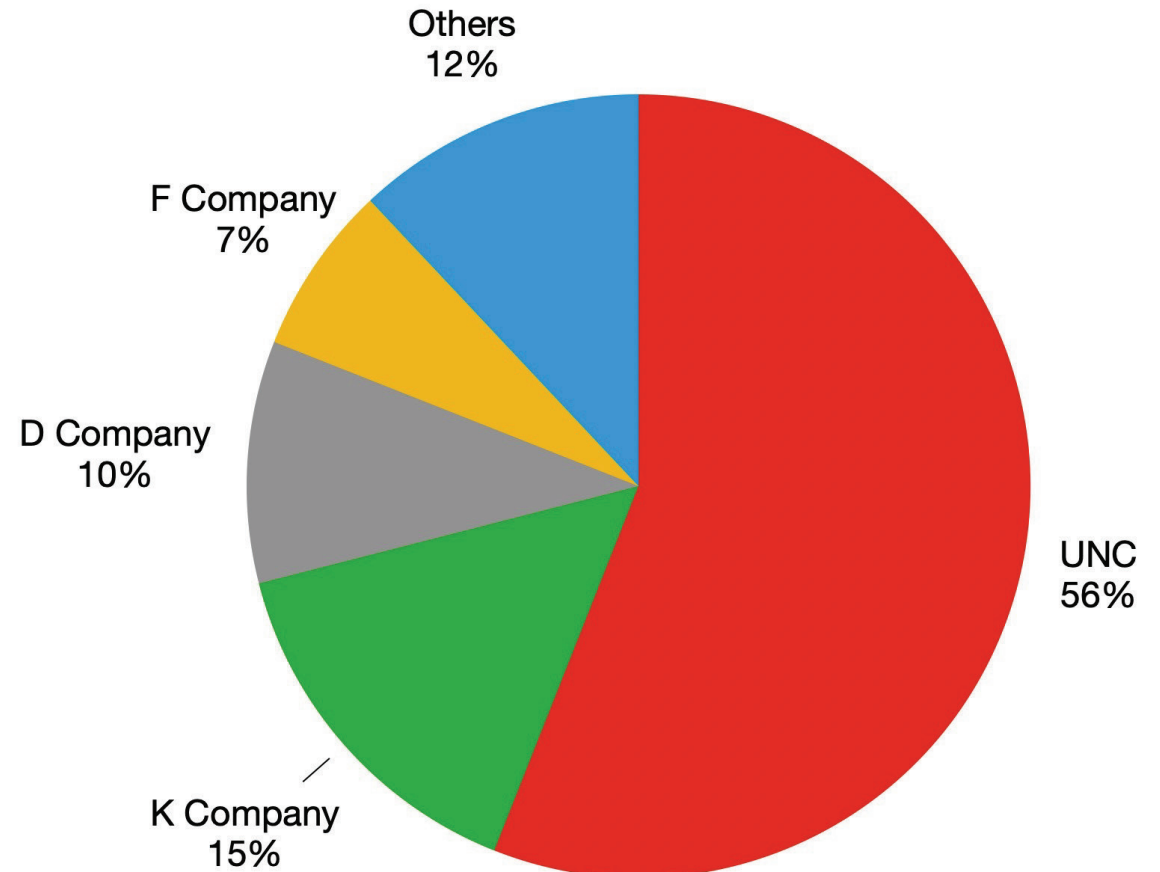

# KOREAN MARKET SHARE

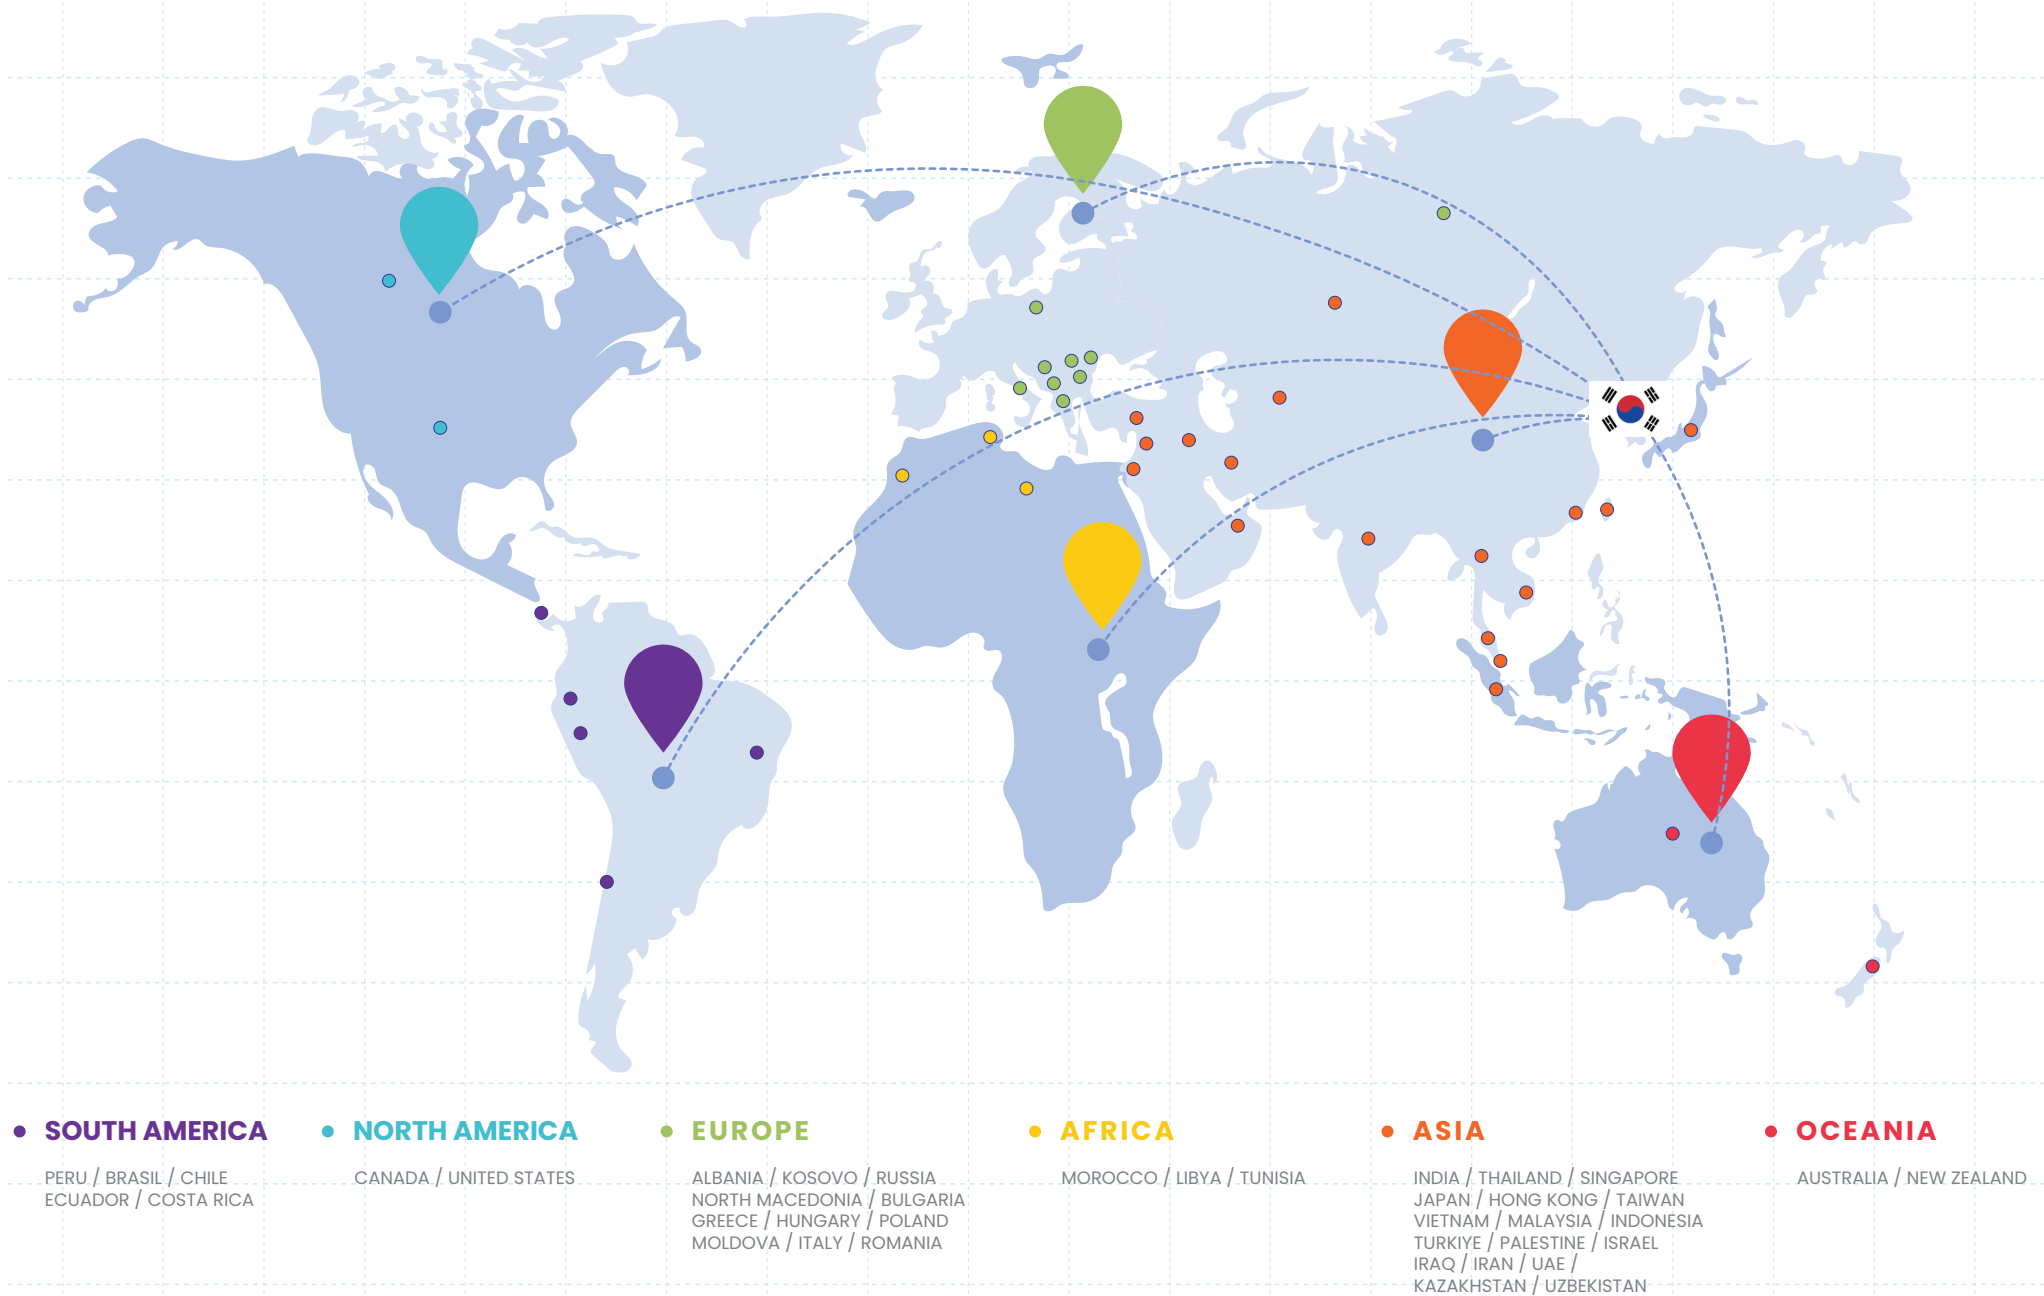

UNC has held the number 1 spot for Zirconia sales since 2017, as well as being the main producer and seller of multilayer Zirconia in South Korea.

PATENT

# OUR PRODUCTION

## Uniformity

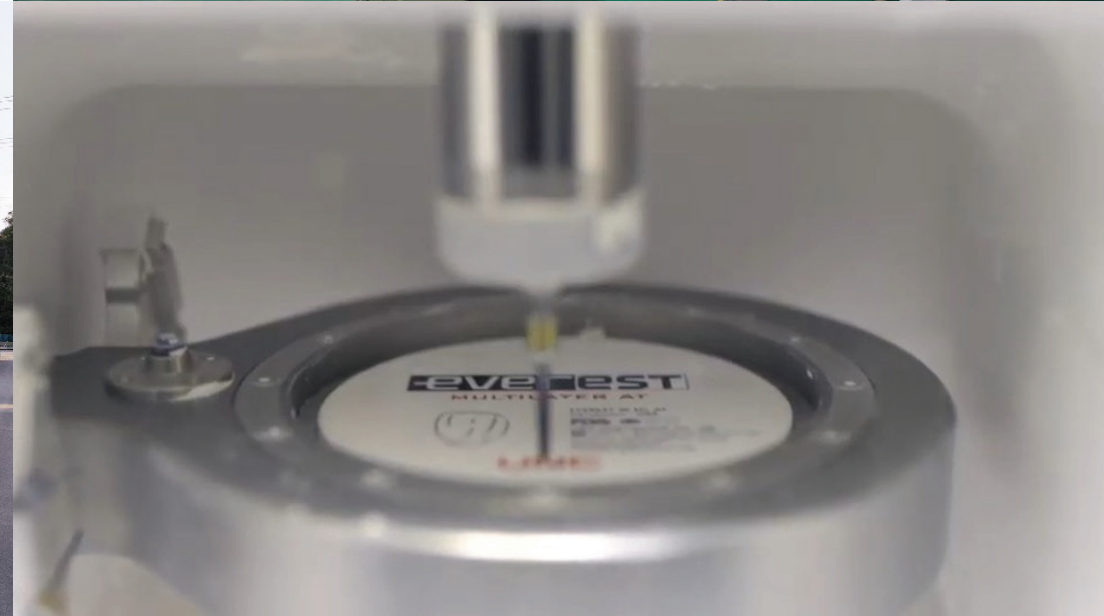

Even, uniform, and predictable grain size

## CIP System

For high compaction and uniform density

## Best Quality

High translucency, strong, and a predictable fit

# OUR EXPANSION

## Social Media

We always update our social media platforms with post about our exhibitions and products.

## Communication

We are dedicated to communication, which is why we use multiple platforms to contact our customers whether it be KakaoTalk, Whatsapp, Messenger, or any other platform.

## Global Partners

We have partners from all over the world, many of which we are in contact with daily to help work out any issues or questions.

# EDUCATIONAL SEMINARS

In order to develop close connections to our customers and buyers, we regularly offer seminars as a way to educate and teach people how to use our products and Zirconia in the best and most effective ways possible.

We offer seminars in Korea and whenever we go abroad to help anyone who would like to use our products fully understand them.

We also offer educational videos on our YouTube channel, available for anyone to watch.
